DUKE MATHEMATICAL JOURNAL

INDEX TO VOLUME 111

BARROS-NETO, J., and I. M. GELFAND. Fundamental solutions for the Tricomi operator, II 561

BOUZOUINA, A., and D. ROBERT. Uniform semiclassical estimates for the propagation of quantum observables 223

CHEN, JUNGKAI A., and CHRISTOPHER D. HACON. On algebraic fiber spaces over varieties of maximal Albanese dimension 159

COLOMBINI, FERRUCCIO, and NICOLAS LERNER. Uniqueness of continuous solutions for BV vector fields 357

FRENKEL, IGOR B., NAIHUAN JING, and WEIQIANG WANG. Twisted vertex representations via spin groups and the McKay correspondence 51

GELFAND, I. M., and J. BARROS-NETO. Fundamental solutions for the Tricomi operator, II 561

GETZLER, EZRA. A Darboux theorem for Hamiltonian operators in the formal calculus of variations 535

HACON, CHRISTOPHER D., and JUNGKAI A. CHEN. On algebraic fiber spaces over varieties of maximal Albanese dimension 159

JING, NAIHUAN, WEIQIANG WANG, and IGOR B. FRENKEL. Twisted vertex representations via spin groups and the McKay correspondence 51

LABUTIN, DENIS A. Potential estimates for a class of fully nonlinear elliptic equations 1

LERNER, NICOLAS, and FERRUCCIO COLOMBINI. Uniqueness of continuous solutions for BV vector fields 357

LEUNG, NAICHUNG CONAN, and VICTOR REINER. The signature of a toric variety 253

LIN, FANG-HUA, and TRISTAN RIVIÈRE. Energy quantization for harmonic maps . 177

LYSENKO, SERGEY. Local geometrized Rankin-Selberg method for GL(n) . . . 451

MOLTENI, GIUSEPPE. Upper and lower bounds at $s = 1$ for certain Dirichlet series with Euler product 133

NOVIK, ISABELLA, ALEXANDER POSTNIKOV, and BERND STURMFELS. Syzygies of oriented matroids 287

PEEVA, IRENA, and MIKE STILLMAN. Toric Hilbert schemes 419

POSTNIKOV, ALEXANDER, BERND STURMFELS, and ISABELLA NOVIK. Syzygies of oriented matroids 287

REINER, VICTOR, and NAICHUNG CONAN LEUNG. The signature of a toric variety 253

RIVIÈRE, TRISTAN, and FANG-HUA LIN. Energy quantization for harmonic maps . 177

ROBERT, D., and A. BOUZOUINA. Uniform semiclassical estimates for the propagation of quantum observables 223

SARNAK, P., and A. ZAHARESCU. Some remarks on Landau-Siegel zeros 495

STILLMAN, MIKE, and IRENA PEEVA. Toric Hilbert schemes 419

STURMFELS, BERND, ISABELLA NOVIK, and ALEXANDER POSTNIKOV. Syzygies of oriented matroids 287

TEIXIDOR I BIGAS, MONTSERRAT. Green's conjecture for the generic r-gonal curve of genus $g \geq 3r - 7$ 195

TOTH, JOHN A., and STEVE ZELDITCH. Riemannian manifolds with uniformly bounded eigenfunctions 97

TSUZUKI, NOBUO. Morphisms of F-isocrystals and the finite monodromy theorem for unit-root F-isocrystals 385

VARAGNOLO, M., and E. VASSEROT. Standard modules of quantum affine algebras 509

VASSEROT, E., and M. VARAGNOLO. Standard modules of quantum affine algebras 509

WANG, WEIQIANG, IGOR B. FRENKEL, and NAIHUAN JING. Twisted vertex representations via spin groups and the McKay correspondence 51

WERNER, ANNETTE. Arakelov intersection indices of linear cycles and the geometry of buildings and symmetric spaces 319

ZAHARESCU, A., and P. SARNAK. Some remarks on Landau-Siegel zeros 495

ZELDITCH, STEVE, and JOHN A. TOTH. Riemannian manifolds with uniformly bounded eigenfunctions 97
